

808 Renewable Energy Releases Photos of Its First Electric Trike Model

Bradenton, Florida – July 16th, 2021 – 808 Renewable Energy Corporation (“808” or the “Company”, OTC : RNWR), today releases the photos and product specifications of its first entry-level electric trike vehicle “ Orca Roadster “, which it is a product of international cooperation program and will be ready for the North America market in Q-4 this year.

According to Mr. David Chen, President & CEO and the company, “ Orca Roadster is a fun to drive and very affordable to own 100% pure plug-in electric reverse trike. It is deemed as an autocycle, so it does not require a motorcycle nor motorcycle endorsement on your driver’s license to drive in most of the states in the U.S. The Company will recruit a number of local resellers in certain geographic areas in the Sunbelt States, and set up some mall locations as the Tesla business model in Florida to launch this vehicle soon. We are working on our other models aggressively at the moment, and we are very excited to roll out our next model which it is a lot more powerful and much faster in the very near future. “
